

# DO **YOU** HAVE **DIABETES** AND SUFFER FROM **PAIN** IN YOUR **FEET?**

A WASHINGTON UNIVERSITY RESEARCH STUDY

You may qualify for a research study to evaluate a new treatment approach for painful diabetic peripheral neuropathy (DPN). Your participation would include study drug and about 3 visits to the medical center over a period of 4-5 weeks.

Compensation for your time and travel may be provided.

Please call or email to learn more information about this research:
