

CAN BRAIN GAMES IMPROVE PAIN?

If you are suffering from **hip**, **knee**, or **back pain**, you may be eligible for a research study to evaluate whether playing brain games can affect chronic pain. Your participation would include completion of questionnaires and brain games.

Compensation for your time may be provided.

You may be eligible if you are:

- Between ages 18 to 70
- Have clinically documented moderate to severe **hip**, **knee**, or **low back pain** for more than 3 months
- Have access to a computer at home and an email account
