

# Healthy Participants Are Needed for Research Study!

The purpose of the study is to examine the distribution of a study drug in the blood and spinal fluid to see if it could help treat certain types of pain. You might qualify to participate if you meet the following criteria:

- 1) Participants must be 18 to 50 years of age
- 2) Participants must have a Body Mass Index (BMI) 18.5 to 30
- 3) Participants must not have diabetes or high blood pressure

There will be **2 outpatient visits** (1 – 2 hours each) and a **48 hour study** (overnight stay) in the **Clinical Research Unit**.

Participation includes collection of spinal fluid through an intrathecal catheter. Participants that complete the research study will receive \$600 for time and effort.
